

Candy Heart Investigation

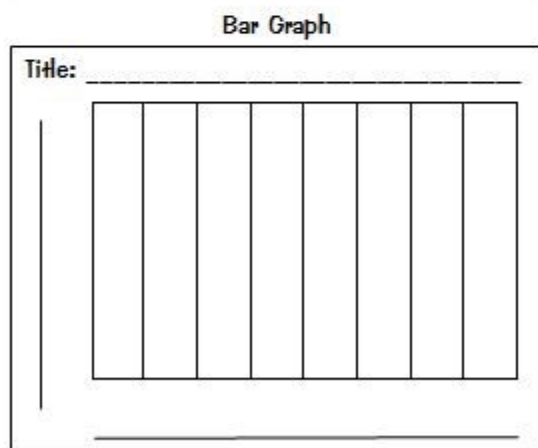

What are you feeling curious about? Write a question below that you can use to collect data about your box of candy hearts. Ask at least 20 classmates your question. Collect the data in the tally chart and frequency table below. Once your data is collected, create a line plot and a horizontal bar graph. Choose your graph intervals carefully! Remember to include labels.

I want to know: _____

Tally Chart	

Frequency Table	

Write a summary of your findings:

What would you do differently if you did this activity again? Explain why.

Write 2 questions that can be answered by looking at your graphs.

1. _____

_____ Answer: _____

2. _____

_____ Answer: _____
