Chupacabra (Cryptid Hunters #3)

by Roland Smith

Booktalk!

Kidnapped by her cold and calculating grandfather and taken back to his famous wildlife preserve, Grace is desperate to find a way out. But, of course, she has to play it cool; with cameras everywhere, she must appear grateful for the opportunity to be around the animals she loves.

But that's the one thing her grandfather overlooked – her love for animals has led her to do some snooping. What she's discovered is a creature thought to be a myth. And it's as terrifying as the stories say.

Best for ages 8–12
