Create, navigate, and print community maps while building essential skills!

With this hands-on program, students create maps of their own neighborhoods, other communities, or imaginary places. As students "map out" their towns, they learn challenging concepts such as grid coordinates, location, scale, and compass navigation, mastering these skills through cross-curricular activities.

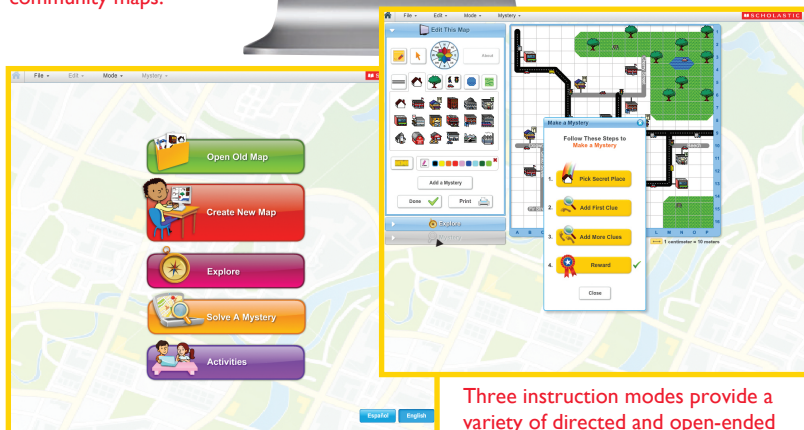

Neighborhood MapMachine features:

- Learning challenges provide a variety of directed and open-ended opportunities to foster critical thinking skills
- Cross-curricular activities support development of map-reading, measurement, estimation, interpretation, and descriptive writing
- On-screen notebook with audio recorder for students to describe their maps orally or in writing
- Pre- and post- tests to monitor progress
- Fully bilingual in English and Spanish
