Information to Knowledge™

How do you help students transform information into meaning?

Timeliner® is the powerful and intuitive program students use to organize data — anything from historical events, to scientific processes, to story plots — to see the connections, and transform a world of information into real knowledge. This all-in-one tool supports students as they gather information; visually organize it on a timeline, sequence, or cycle; and communicate their understanding in rich, multimedia presentations.

**70+ Activities
Included!**

**Cross-curricular
Activities**

Timeliner features:

- Ready-made projects across the curriculum or instructions for students to create their own
- Quick and engaging scramble challenges to assess student understanding of sequential information
- “Finish Me” activities that promote critical thinking
- Everything students need to visually organize information, express creativity, and develop rich, multimedia presentations
- Fully bilingual in English and Spanish

Find **Timeliner** in **Scholastic Learning Zone**, Scholastic's NEW web-based platform that provides educators and students with one-stop access to an ever expanding portfolio of digital education resources.

The Zone features:

- **Single Sign-on.** Access to all Scholastic subscription products with one user name and password
- **Class Management.** Organize students into classes and groups
- **Reporting.** Check how long and how often students are using their subscriptions
- **Messaging.** Easy communication for you, your students, administrators, and parents
- **Anywhere, Anytime Access.** In school, in the library, at home – anywhere with Internet access
