

Starter Libraries

We've done the work for you!

Selecting the appropriate books for your library is both difficult and time-consuming. To save you time and ensure you receive a high-quality selection of the right mix of books, Scholastic offers a number of Starter Libraries. Scholastic Starter Libraries follow the best research practices about the variety of genre and mix of content that should be included in a library. Select the Starter Library that is right for your student population – and budget! Each Starter Library includes basic reference titles, nonfiction titles covering essential content-area topics, and a core collection of fiction titles to get your library started!

Partner with Scholastic to:

- Build a new library or replenish an existing one with ease
- Select a broad range of the right mix of content, genre, and reading level for all your students
- Motivate students to read and learn with high-quality, engaging literature and reference materials

What's Included:

- Reference, nonfiction, and fiction titles
- Hi-interest, low-level books that will get ALL your students reading
- Technology resources
- Library Processing is available for all titles

Select your age range and budget, then contact your local Scholastic sales representative to get started! Scholastic will work with you to customize a library to meet your specific needs.
