What is an ATV?

An ATV is an all-terrain vehicle. It is built for off-road riding. There's almost nowhere an ATV can't go. ATVs travel easily over dirt, sand, grass, or mud. They're small, fast, and can handle just about any type of terrain.

The Navy is built for battle. Its sailors use many different weapons. Big machine guns can take down enemy aircraft. Missiles lock onto targets on the water and in the air. *Herpedoes* cruise underwater toward their targets. Ships release depth charges to destroy enemy submarines.
